

new year new look

The PD Registry will have a fresh, new look on the home page in May!

We've put together a list of Frequently Asked Questions below to help you navigate the site and guide you through this transition. Keep in mind that this is the same registry system, but it just has a new look when you first log in.

Will my PD Registry profile look different when I log in?

The PD Registry's Individual Profile will be sporting a new look! With a sleeker design and straightforward steps, this new version of the PD Registry will significantly help streamline the profile-building process for our ECE field.

Will my profile disappear with this new version of the PD Registry?

Your current PD Registry profile will seamlessly transition into the new version of the website, and all your previous information will be saved.

Of course, if something on your profile isn't as it should be, please email us at registry@pakeys.org and we'll be happy to help.

Will I need to update my email and password to access this new version of the PD Registry?

The current email and password used for the PD Registry will be the same. If you experience any difficulties, please contact us at registry@pakeys.org.

Why will the homepage of the PD Registry look different, and everything else will look the same as before?

The updates of the PD Registry will only apply to the Individual Profile. However, other aspects of the system (e.g. Organization Profiles, Trainer Profiles, etc.) will undergo their own updates in the future.

How will I edit my personal information?

You will be able to update your personal information at any time by clicking the Edit Personal Information button at the top of your PD Registry homepage. It is important to keep this information current.
